

Permit Pro

Easy record keeping for Building Surveyors

Overview and Benefits

Permit Pro provides smart technology to allow you and your staff to quickly enter and manage jobs, required inspections and related directions. It reduces errors by employing a variety of validation techniques. PermitPro is compliant with the latest July 2006 Victorian Building Commission reporting requirements. Using its built tracking mechanism PermitPro helps you manage your jobs from registration, through assessment, issuing of Building Permits, tracking required inspections and even directions that you have issued, to ultimate issue of an Occupancy Permits or Certificate of Final Inspection.

Product Features

- Manages all aspects for a Building Surveyor from registration to archiving job
 - Job details
 - Inspections
 - Directions
- Simple and fast data entry
- Entered data is validated
 - Addresses (suburbs and postcodes)
